

PRODUCT INFORMATION

Gentian Violet ANTISEPTIC SPRAY

Gentian violet (crystal violet – methylrosaniline) has been used successfully for many years as a topical dressing for minor cuts and scratches due to its antibacterial and its fungal properties. Norfeed UK Gentian Violet Antiseptic Spray is a special aerosol formulation of this traditional preventive treatment suitable for use with all livestock. G.V. Antiseptic Spray incorporates the following features:

- ◆ Fully emptying
 - ◆ Non-clogging
 - ◆ CFC-Free
 - ◆ Ozone friendly
 - ◆ Quick drying formulation
 - ◆ Fine nozzle for precise application
 - ◆ Available in two convenient sizes (200ml and 400ml)
-
- ◆ Apply to minor cuts, scratches and grazes to guard against bacterial and fungal infection and promote rapid healing.
 - ◆ Apply to umbilical stumps to guard against bacterial and fungal infection and help promote rapid healing.
 - ◆ Apply to minor hoof lesions to guard against infection.
-
- ◆ Clean the wound so far as possible.
 - ◆ Shake the can before use and spray area liberally.
 - ◆ Please note that due to its high gentian violet content this product will stain skin and clothing.
 - ◆ Use in a well-ventilated area away from sources of ignition.
